Vol. 25, No. 1

A quarter-century and counting for *The RPI Report* in 2015-16

This issue of *The RPI Report* marks the first issue of our 25th season! Our first issue of *The RPI Report* debuted on January 6, 1992, and many things related to college basketball then were much different than they are now. That 1991-92 season may seem light-years ago for many, but the old adage “the more things change, the more they stay the same” is still appropriate in some ways. The NCAA tournament is still the king of college hoops, probably more so now than back then, even with competition from all kinds of electronic and social media that are so prevalent in today’s society.

It is hard to believe that CBN has been in business for nearly one-third of the time that the NCAA tournament has been played since that first 8-team tournament was won by Oregon in 1939. Looking back at the 1991-92 season, Duke won its second national championship (compared to 5 today), Kentucky had 5 titles (compared to 8 today), Connecticut had 0 (compared to 4 today), and North Carolina had 2 championship trophies (compared to 5 today). Back then virtually no fans had heard of the RPI, and it is a mainstay of the college basketball conversation today. There were 298 official Division I schools that could compete for the national championship, compared to 346 today. The average number of points scored per team in 1992 was 74.98 ppg, compared to 67.64 in 2015.

Some of the similarities are that there were 64 teams in the NCAA tournament in 1992 compared to 68 today, which is not a huge change. Some 30 conferences were automatic qualifiers to the NCAA tournament then, compared with 32 today, and there were a total of 96 teams in post-season play in 1992 compared to 164 in 2016, including the new Vegas 16 tournament which will debut in March.

At long last, this is one of the quietest years in terms of schools changing conferences in recent memory. Only two schools out of 351 that count in the RPI found new conference homes. Northern Kentucky moved from the Atlantic Sun to the Horizon League, which is back to its old 10-member mark. NJIT joined the Atlantic Sun, keeping its number at 8 members. NJIT was the lone independent school last season, but that does not necessarily mean there will never be another independent. Schools have been forced out of conferences in the past, and they usually end up as independents for a few seasons before finding a new conference home.

No schools are new to the RPI this season, but one school, Summit League member Omaha, is now officially a Division I member and is eligible to participate in the NCAA tournament. Five RPI-counting schools are still in the reclassifying phase and are not yet eligible for the NCAA tournament: Northern Kentucky (eligible in 2016-17), and Abilene Christian, Grand Canyon, Incarnate Word, and UMass Lowell, which are all eligible in 2017-18.

Four Schools are ineligible for the NCAA tournament due to APR sanctions this season and another due to NCAA rules violations. Those ineligible due to APR scores are Alcorn State, Florida A&M, Stetson, and Central Arkansas. SMU is banned from the 2016 post-season and is on probation for three years due to rules violations. So, there are 351 teams in the RPI this season, the same as last season. There are 346 official teams in Division I basketball, leaving 341 that can play in the NCAA tournament due to the 5 ineligible teams. That number is subject to change pending appeals and any other situation that may arise.

Be sure to take a few minutes and look at our updated men’s home court records list at rpiratings.com/homecourtrec.php. This list contains a wealth of information and can be a help in setting up future non-conference opponents. We are always on the lookout for updated home court information. If you spot any additions, corrections, or discrepancies, let us know and we will make any verified changes.

Don’t forget to order the **CBN Men’s Post-Season Wrap-up** bound volume for the 2014-15 season (we have only a few copies left), and for the current 2015-16 season as well. An order form can be found on our web site at www.rpiratings.com (click on the Subscriber Services link). Our bound volumes contain a **complete set** of *The RPI Report* for the season, complete team-by-team **game results** for the season, analysis of non-conference road games, standings, and much more! They are especially valuable in researching data related to non-conference scheduling. Be sure to get your order in for the 2015-16 season **now** because we print only a limited number of copies. It will be mailed in late April. Call us at (317) 255-0749 if you would like additional information.

Keep our CBN On-Site Service presentation in mind for your school or conference to benefit from detailed knowledge of the RPI and the importance of non-conference scheduling. CBN has given presentations to **13 different conferences**, and several of those multiple times. Although it focuses on basketball, the principles of the RPI and non-conference scheduling are generally the same from sport to sport, allowing all of your programs in which the RPI is used to benefit. Also, CBN routinely conducts special projects each year for schools and conferences, including data-intensive calculations on tasks such as non-conference scheduling analysis and other related topics. If you would like additional information, please email or call us at (317) 255-0749.

KEY TO CHANCES OF BEING AN AT-LARGE NCAA TOURNAMENT SELECTION IN VARIOUS NON-RPI CATEGORIES

This list appears in the **Report** around the first of February. "OK" denotes the team has, in general, met the standard for the given column, based on past at-large tournament selections. For NDI games, a "69.8% had 0" means that 69.8% of at-large teams played no non-Division I games; "OK means they played no such games. For D-I wins, "69.4% had more wins" means that 69.4% of at-large teams had more wins than the team in question, and so on. The RPI Ranking Bracket column gives the percentage of at-large teams within the ranking bracket that were selected for the tournament.

The Rating Percentage Index has been used since 1981 to help select at-large teams and seed all teams for the men's NCAA basketball tournament. Data herein duplicates the RPI without input from the NCAA. The three RPI components are: Factor I (25 % of the RPI) is the team's weighted Division I (D-I) winning percentage, excluding non-Division I opponents. Factor II (50 %) is the team's opponents' D-I winning percentage (schedule strength) excluding games played against the team in question. Factor III (25 %) is the team's opponents' opponents' D-I winning percentage (the teams' opponents' schedule strength). The weighted RPI formula is based upon the home, neutral, or road location of the game.
